## ***Welcome to the Limelight Lounge!***

We're committed to the safety and well-being of our guests and employees, while still providing a great experience for all. You'll see some important changes in our operations to assist with the Idaho Rebound Plan.

- To assist with social distancing we ask that you enter through the lobby entrance facing Main St, where you will be greeted by a host who will take you to your table. We ask that you depart from the Plaza Deck area on Washington Street.
- For the time being all services will take place at your table and no bar seating and service is available until later phases in Idaho's mandated plan.
- We've reduced our seating capacity a bit and distanced our tables 10ft apart. Once at capacity, we will have a waitlist for guests to be seated.
- For the safety and comfort of all of our guests and employees, we asked that kids remain at your table.
- All of our staff will be wearing masks and we ask that you to do the same if possible until you get seated.
- In the early stages of the state's plan we are unable to provide seating at the bar and the Kids game room will be closed for the time being.
- We will continuously clean and sanitize all areas of the restaurant, and have added hand sanitizing stations in our public spaces for your use anytime.
- We ask that social distancing be maintained at all times and above all have a great time!

With your help we can make Limelight a safe place to gather and socialize with your friends and family.
